

Display Size	100inch	110inch	120inch
H(mm)	352	377	402
D(mm)	245	295	346

\* Display size is the diagonal screen

\* Due to mechanical tolerances the above numbers could change of  $\pm 5\%$ ; please consider this while designing your installation.

H: The “**H**” is the distance from the bottom of the DTV-S to the lower edge of the screen

W: The “**D**” is the distance from rear of the DTV-S to the surface of the screen.

## Ceiling Installation

In case of ceiling installation, we recommend using one bracket that allows you tilt and yaw adjustments; furthermore, forth and back adjustment could be useful to match the image at screen.

Hang the projector but using the four holes in the center of underneath panel: DO NOT use feet.
